

Our consultants successfully completed projects in South Africa, Botswana, Namibia, Mozambique, Zambia, Kenia and Saudi Arabia to name but a few.

**BE A REASONABLE PERSON**

Prove to any legislative or other authority that you are doing what can be expected of a reasonable person to do.

"In all cases where there is a contravention of an act or a regulation, whether directly or indirectly, the Owner and/or Manager is held prima Facie liable. But, if he can show that he gave instructions to carry out these acts and regulations properly and that he interested himself in the matter to see that his orders were properly carried out, then he is not to be held responsible".

Our courts have laid down broad guidelines which can be followed to determine the foreseeability of harm. Consider the following:

"A reasonable person is not expected to foresee remote possibilities. He/she is also not expected to foresee reckless conduct on the part of another and to take precautions against such conduct".

"After the event even a fool is wise but it is not the hind sight of a fool, it is the foresight of a reasonable man which alone can determine responsibility."

(Quotes taken from various cases recorded in South African law)

# ISO 14001

Effectively Manage the Environment in which you operate

Don't be mean, be green

Make it clear, your organisation cares

Quickly identify and correct newly occurring environmental problems
