

Measure your company's Health and safety performance and prove that it complies with internationally accepted standards and complies with local legislation.

"In all cases where there is a contravention of an act or a regulation, whether directly or indirectly, the Owner and/or Manager is held prima Facie liable. But, if he can show that he gave instructions to carry out these acts and regulations properly and that he interested himself in the matter to see that his orders were properly carried out, then he is not to be held responsible".

Our courts have laid down broad guidelines which can be followed to determine the foreseeability of harm. Consider the following:

"A reasonable person is not expected to foresee remote possibilities. He/she is also not expected to foresee reckless conduct on the part of another and to take precautions against such conduct".

"After the event even a fool is wise but it is not the hind sight of a fool, it is the foresight of a reasonable man which alone can determine responsibility."

(Quotes taken from various cases recorded in South African law)

Our consultants successfully completed projects in South Africa, Botswana, Namibia, Mozambique, Zambia, Kenia and Saudi Arabia to name but a few.

OHSAS 18001

Effective Health and Safety management
Manage your risk with our effective Risk management methodology

Because you will do what can be expected of a reasonable person to do!

Because it shows due diligence!

Because it provides a legal footing when it is needed!

There are GOOD reasons to manage health and safety in the workplace.

OHSAS 18001:2007

A world renowned system for managing health and safety in the workplace.

Contact us for a hassle free quotation!

As OHSAS 18001 calls for continuous improvement, organisations have a benchmark against which to improve its health and safety performance. Previously encountered problems will have been resolved through a formal mechanism and a methodology for correcting newly occurring problems will have been established.

Flexible solutions for your business needs

WHY DO YOU NEED OHSAS 18001?

The importance of decision criteria and safety management can be measured and prove that it complies with set standards.

YOU NEED A SYSTEM THAT IS EASY AND EFFECTIVE

Our approach ensures a sustainable, cost effective product with little or no maintenance cost. Isoglo is however available to provide a maintenance service should our customers prefer this approach.

MANAGE HEALTH AND SAFETY IN THE WORKPLACE
You never know when you might need it

CUSTOM SOLUTIONS
